### SUMMARY

Visionary writer and experienced collaborator ready to cast my prodigious energy into a television series that breaks boundaries and embraces the medium as capable of the highest artistic expression. I fully believe that character-driven series define the medium, and am influenced and inspired by series such as Westworld, Big Little Lies, Mad Men, Breaking Bad, Rectify, and Six Feet Under. My own writing finds drama with inwardly conflicted characters rather than characters in conflict situations.

### SKILLS

#### Writing

- Visual storytelling • Script and general editing • Avid researcher
- Character development and psychology • Copywriting • Business writing
- Film-, television-, animation-, and videogame-scripting
- Genre experience with: Comedy, Tragedy, Horror, Mystery, Suspense, Science-Fiction, Fantasy, Comic books, Children's literature
